MR. FLYNN'S STATEHOOD BILL

What Republicanism Fasten on Oklahoma Territory Means

Addressing to the 44 Congress, let Senator Mr. Flynn to the House of Representatives, December 7, 1896. In Session 4, page 1, June 26, 27 and 28, to read the following language: That provision shall be made for the establishment and maintenance of a system of public schools, which shall be open to all the children of said state.

If you want your boys and girls to play upon the same play ground, to mingle in the same school room, to come to the same class with colored children, vote for Flynn and the Republican party. If you are opposed to the mixing and intermingling of the races, if you are for separate schools, vote for Naft in congress and a republican legislature.

A Republican method is fastened upon Oklahoma by making a constitutional convention out of our past legislature should it be Republican. It will take ten years to undo its harmful work. The sovereign voice of this territory is entitled to a vote in the selection of delegates to the constitutional convention direct. The way to success is to defeat the Republican legislature.

The Republican party, realizing that there is no longer any hope of electing its delegates to congress, sided by the national interests of the territory in founding its every energy in the election of a Republican legislature that it might sustain upon the territory a constitution opposed to its interests, and in finding from its boundaries a Republican state, from which they could elect two United States senators, to supersede anti-Republican majorities in this territory.
